MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENTS

We are engaged in the business of Manufacturing Wires & Cables in India. Our Company was incorporated in the year 2007 and is engaged in the manufacture and export of wires and cables in India. We are using advanced technology and machineries for manufacturing quality products. We started our business with PVC cables and wires in India which are now supplied across different networks worldwide. Our quality products are sold not only in India but also in countries like UK, UAE, Africa, Singapore etc. Our manufacturing facility is situated at Shapar (Rajkot, Gujarat) India. Our facility involves modern technology, tools, high-tech machines which spin out the quality standard of cables.

We have a well-equipped research and development unit that helps us immensely to offer innovative products to our clients. R & D is always a boon for staying ahead of others in this extremely competitive environment and our cables and wires have always assisted in the growth of a substantial segment of Indian industry. Our manufacturing facility, spread over 11483.19 sq m area and has 100 per cent in house facility from wire drawing machine until testing on finished products. Our Company has purchased additional Machinery to enhance the production capacities of power and control cables twice.

The global economy is recovering steadily from the COVID-19 pandemic, marked by the rollout of vaccination programs across nations, announcement of additional fiscal support in various economies and an improving capability to contain the re-emergence of further virus outbreaks. In this scenario, high uncertainty surrounds the global economic outlook, primarily related to the path of the pandemic. The contraction of activity in 2020 was unprecedented. In face of such uncertainty, we relied on our established tenets of communication, engagement, positive support and team working to tide over challenges.

2. OPPORTUNITIES AND THREATS

Our Company has adequate production capacity to meet an increase in demand. We have more than 1300 products in cable segments, and we are continued to do so. We are approved by various Government authorities to supply them regularly to meet their requirements. We are also approved vendor of various Large Public and Private sector Industries. Increasing overseas demand, Infrastructure development, transmission needs, Growth in sectors other than power like, Mechanical cables, Auto cables, Special cables and Power cables. The company has vast opportunities to expand its product base and also to extend its operations across globe including untapped countries.

Government's focus on Infrastructure developments such as roads, railways, ports, housing, smart cities is expected to create demand for electrical Wires and Cables. Slowdown in the infrastructure activities may impact the near to mid-term growth prospects for Industrial and Infra segments.

The world market is evaluating Indian companies as an alternative to other Asian countries. Having a wide product range and state of the art manufacturing facilities, gives an opportunity to capture the export market especially the developing countries in Africa and South East Asia. Global economic slowdown led due to pandemic or other factors might reduce the growth opportunity.

3. FINANCIAL PERFORMANCE

It was an unprecedentedly challenging year. But our agile management of the business environment and focused approach to fulfillment needs helped us record strong growth.

The key highlights of financial performance are as under:

- Revenue from operations: Revenue from operations stood at 7065.11 Lacs in FY 2021 against 6620.06 Lacs in FY 2020, registering growth of 6.75%. Other operating income also increased for 65.97 Lacs.
- EBIDTA: Earnings before interest, depreciation, tax and amortisation (EBIDTA) for the FY 2021 was Rs. 765.75 Lacs compared to Rs. 579.44 Lacs in the previous FY 2020 which increased by 33% as compared to last year.
- Profit before Tax: Profit before tax for the FY 2021 was Rs.256.17 compared to Rs.171.04 Lacs in the previous FY 2020.
- Net Profit Margin: Profit after tax (PAT) for the year was Rs.204.43 of higher by 97% as compared to the Profit after Tax (PAT) of Rs.103.72 Lakh in 2019-20.

4. RISK & CONCERNS

Uncertainty is always a part of the business environment. It has been over a year since COVID- 19 pandemic hit us hard, and we are still dealing with disruptions in many geographies. We hope the situation to improve with vaccine coverage across the world. Our performance in the year is testimony of the strength of our risk management system that helped us sail through the turmoil successfully. The Company has a Risk Management Manual in place that defines the policies, strategies to decide on the risk taking ability of the organization. Company acknowledges risks, not limited to operational, financial or compliance that could affect the future performance and market positioning of your Company. The Company constantly reviews its exposure to various types of risk, whether it be regulatory, operational, environmental, financial.

The Company's well-established process of risk management includes identification of design gaps, analysis and assessment of various risks, formulation of risk mitigation strategies and implementation of the same to minimize the impact of such risks on the operations. The process ensures that new risks, which might arise, or the impact of existing risks which might have increased, are identified and a strategy is put in place for mitigating such risks.

Company embraces a risk management portfolio for forecasting and mitigating the impact of internal and external risk factors. The internal risks which are mainly associated with the operations of the Company and the external risks which are linked with the economic and market volatilities are stated below:

Internal Risks:

- **Policy Risk:** Company integrates the risk control measures into the organization's overall governance by periodically assessing the risks of the policies for internal operations and the statutory issues. Based on the risk assessment, the policies are amended from time to time.
- **Employee Turnover Risk:** Company retains a team of qualified and experienced personnel where the attrition rate is lower than the industry average. The loss of key personnel to competition is a risk where your Company's technical information would be acquired by the competitors. Company is motivating and rewarding employees to retain talent. Your Company also maintains a policy to acquire talent as a succession plan to support the Company's growth strategy.
- **Working Capital Risk:** Company caters to the infrastructural and industrial segments, which largely depends on the economy. Therefore, any setback in the economy directly impinges on the demand emerging from the infrastructural and industrial segments. The risk of economic downturn could lead to fund scarcity and delayed realization of receivables which in turn would affect the working capital requirements of Company. Company gives priority to the customers who have sound financial locus standing. Company closely monitors the working capital requirements by constant follow up on receivables and maintaining lean and symmetric inventories.
- **Operational Risk:** It related to people, processes, systems and external factors have a potential risk on your Company's performance. To reduce such risk, your Company has a risk-review policy in all areas of operations.
- **Technology Risk:** Company is agile on the technology frontier by constantly reviewing new technology in terms of product and process to avoid obsolescence. The Company has a background of constantly upgrading the technology to maintain its position at par with international players and remain ahead of its peers in the home-turf.
- **Product Development Risk:** Company has been consistently developing new and higher range products. The products have to be validated by type testing and long-term accelerated ageing test from a recognized independent testing laboratory. As these tests have significant cost involvement, any failure in the product development results to financial and opportunity loss. The R&D and in-house testing laboratories of Company have equipped with comprehensive testing facilities which can verify and assess the quality of the product during the process and final stage prior to conducting the certification tests at an independent laboratory.

External Risks:

- **Competition Risk:** The nature of competitive risk is distinct for each product group. The risk involves entry barriers which are gradually being made more stringent by the customers to screen out several players. It is imperative for Company to acquire performance record credentials from the user on supply and installation to qualify as an eligible bidder. It is also necessary to repeat test and revalidate test reports for specific type & design of the product. Company has to keep at par with the development and innovation introduced by the multinational companies to avoid the risk of obsolescence. Company is addressing to the quality conscious customers to retain its market share.
- **Market Demand Risk:** Company is dependent on the infrastructural sector, industries and original equipment manufacturers. The Government policies have a direct bearing on the demand from the various market segments. Company has a broad base clientele, wide product range and flexible manufacturing set-up, therefore, it can somewhat off-set the cyclical or depressed demand of affected segment with the other segments. From time-to-time, the Company makes changes in its product-mix to suit the order and demand pattern.
- **Customer Risk:** To mitigate these risks, your Company maintains constant touch with its clientele to understand and deliver products and services aligned to its changing priorities. Your Company maintains strong business relationship with large customers by providing technical guidance and information, support on urgent and crisis requirements to remain virtually indispensable to the client. Your Company has built a reputation as a preferred supplier with most of its customers by creating a quality trust in a bid to protect itself from competition and entry of new players.
- **Raw Material Price Risk:** The prices of international commodities e.g., copper, aluminium and polymers, which are the key raw material components, are subject to considerable price volatility. Since the market prices of cables are generally on firm price basis, the seesawing prices of these commodities can severely impact the cost of the product where the consequential risk must be borne by Company. Company gives priority to customers who allow price variation on input raw materials.
- **Pandemic Risk:** The COVID-19 pandemic risk was not anticipated by the Company. Control measures of social distancing, work from home, restriction on outsiders and hygiene requirements have been instituted as a protection measure during the crisis. Clearer risk aversion measures would be adopted after more details are available and in line with the health care measures recommended by the Ministry of Health, Govt. of India.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR'S REPORT

of Even Date on the Standalone Financial Statements of ULTRACAB (INDIA) LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **ULTRACAB (INDIA) LIMITED** (“the Company”) as of 31st March, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence I/we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
